Product Description

Monoclonal anti Rat Renin

118

Concentrated supernatant

Product: Anti-mouse and rat renin.

Code No: 118

Form: lyophilized (reconstitute with 200 µl of bidistilled water).

Description:

This antibody has been generated against mouse submandibular gland renin but it also recognizes rat renin in immunohistochemistry, immunoblots and dot-immunobinding assays. Best dilutions have to be tested for each application.

Storage:

store lyophilized form at 4°C. After reconstitution freeze small aliquots at -80°C.
